

Nano-Synthetic

RFG

Rapid-Fire Gun Grease

**MILITARY
GRADE**

G96 Rapid-Fire Gun Grease is a revolutionary Military Grade formula designed to meet the most demanding needs for small and large caliber weapons. When gently wiped down, a thin film of gun grease stays where it is placed. Use on all sliding surfaces, rails, trigger mechanisms, cam pins, choke tubes, and any other areas that require a lubricant.

- Extreme lubrication and protection as a result of nano synthetic technology.
 - Superior performance in all climates under all weather conditions on all types of firearms.
 - Freezing point -62°C (-80°F).
 - Dropping point $+260^{\circ}\text{C}$ ($+500^{\circ}\text{F}$).
 - NO "bleeding out" of oil.
 - Stays where it is placed.
 - Reduces friction and wear and extends the life of all firearms.
 - Protects against corrosion.
- Reduces carbon residue, galvanic corrosion, and build-up of metallic and powder residues.
 - 85% Biodegradable.
 - Safe for use on polymer weapons.
 - For firearms use only.
 - 13cc syringe — 30% more than competitors!
