[®] *complete* **GUN TREATMENT**

G96 "Triple Action" Gun Treatment [®] is the finest most complete firearms product made. It Cleans, Lubricates, and Protects your gun in one operation. No solvent or preservation necessary. Safe for use on polymers.

Retail Stock Numbers

G96 1055 - 4.5 oz. aerosol can

G96 1055P - 12 oz. aerosol can

*Bilingual packaging available for Canada. Please specify when ordering

► **Cleans** ► **Lubricates** ► **Protects**

This is the single and best gun care maintenance product ever designed to solve a gun owner's cleaning, lubricating and corrosion protection problems. A unique formulation of active lubricants will not freeze, oxidize or evaporate. Designed with a pleasant odor, this gun treatment is assured perfect firing from 50°F below zero to 350°F.

Cleans: Contains solvents which will completely remove all traces of rust, gun powder, leading, and corrosion in seconds.

Lubricates: Contains lubricants which will not freeze, oxidize, or evaporate (the result of missile research). Leaves no gummy residue. Keeps firing pin and all moving parts working as low as -50°F below zero; ensures perfect firing every time.

Protects: Leaves invisible magnetic film over all metal parts which protects your gun against rust under all weather conditions, even salt water spray. Protects frequently handled guns against "finger-print" damage.

Crud Buster Polymer Safe Firearm Cleaner

The high pressure cleaning solvent contained in this product effectively cleans all moving metal parts, triggers, ejectors, and extractors on firearms. The extension tube which inserts into the valve head produces a high pressure spray that allows the solvent to penetrate and remove soluble as well as in-soluble particles from the firearm. It is excellent for use on rifles, shotguns, and pistols.

SAFE FOR USE ON POLYMER FIREARMS. FOR FIREARMS USE ONLY.

G96 1202 – 16 oz. aerosol spray can

*Bilingual packaging is also available for Canada. Please specify when ordering.

Nitro Solvent

Especially designed for the serious skeet and trap shooter. It neutralizes the corrosive acid residue buildup from the plastic shot shells. Heavy duty solvents quickly remove leading, powder residue and metal fouling for a sparkling clean bore. Makes firearms more effective by removing dirty particles. May be harmful around painted metal, plastic, synthetic or varnished stocks. It is recommended that G96 Gun Treatment and any G96 Gun Oil product after using Nitro Solvent.

G96 1105 – 6 oz. aerosol can

*Bilingual packaging is also available for Canada. Please specify when ordering.

Firearm Cleaner/Degreaser

G96 Firearm Cleaner/Degreaser is a water-based, biodegradable, cleaning solution for use on metal and other hard surfaces. It is used to remove hydro-carbon and other organic residue as well as inorganic material from surfaces, and is non-corrosive to a wide array of metals, plastics, rubber and other materials. Use prior to bluing. May be used to clean polymer frames, AR/AK furniture, sights, anodized aluminum receivers, handguards, grips, and other exterior parts found on a firearm.

G96 1088 – 4 fl. oz.

*Bilingual packaging is also available for Canada. Please specify when ordering.

Gun Oil

G96 Gun Oil is the same formula as G96 Gun Treatment, except it is a liquid and not an aerosol spray.

G96 1054 – 4 fl. oz. w/ twist cap

G96 1054G – 1 gallon container

Also available in 55 gallon drums. Please contact us for special pricing.

*Bilingual packaging is also available for Canada. Please specify when ordering.

GUN BLUE

Highly recommended over all other brands by gun enthusiasts and gunsmiths. Mirror-like finish is guaranteed to blend perfectly into the original bluing. Leaves no streaks or spots; will not rub off or discolor.

This product is for those who prefer a liquid touch-up bluing. Blues instantly producing a rich bluing which will not rub off or discolor.

Instant action gun blue pen-type dispenser makes it easy to touch up small marks and scratches with a minimum of preparation. Produces a rich, dark blue which will not rub off or discolor. Ideal for use on finger guards, barrel tips, etc. For best results, clean with G96 Gun Degreaser and finish with G96 Gun Treatment or any G96 Gun Oil.

Gun Blue Creme G96 1064 – 3 oz. bottle

Liquid Gun Blue G96 1069 – 2 oz. bottle

Gun Blue Stick G96 1078 – 10 cc pen

*Bilingual packaging is also available for Canada. Please specify when ordering.

GEN² SYNTHETIC Bio-CLP Gun Oil

MIL-PRF-63460G BIO-BASED

For the 21st Century

G96 Synthetic Bio-CLP Gun Oil, which is the first USDA Certified BioPreferred product to achieve qualification as a DoD CLP.

Military Approved

G96 Synthetic Bio-CLP Gun Oil has been approved for use by the U.S. Army for 21st century cleaning, lubricating, and preservation of both small and large caliber weapons and weapons systems (Military Spec MIL-PRF-63460G BIO-BASED & NATO S-758). This product is formulated for maximum gun and environmental protection. It is inherently biodegradable, contains no solvents or VOCs, and is a minimum 33% biobased.

Cleaner: Significantly improves clean up after firing.

Lubricant: Original tolerances will be maintained longer under extreme conditions.

Preservative: Unique combination of additives protects and bonds to metal, yet it is safer for the environment than most other additives.

Safe for use on polymers.

Nano-Synthetic

RFG

Rapid-Fire Gun Grease

**MILITARY
GRADE**

G96 Rapid-Fire Gun Grease is a revolutionary Military Grade formula designed to meet the most demanding needs for small and large caliber weapons. When gently wiped down a thin film of gun grease stays where it is placed. Use on all sliding surfaces, railers, trigger mechanisms, cam pins, choke tubes, and any other areas that require a lubricant.
